# Impact

The impacts on the BBC of **potential fraudulent activity** cover multiple areas - this is not solely a financial issue.

Licence-fee payers have the right to expect that all appropriate controls are in place to ensure no BBC monies or resources are being mis-directed.

One should not under-estimate the **personal impacts on morale** to individuals who may find themselves indirectly involved or subject to an inappropriate culture and the widespread reputational damage that can result. Such damage can impact our ability to conduct our role as an impartial organisation with the highest regard for our values, particularly trust and respect.

Further details are available by following the links.

- Financial Loss**
- Reputational Damage**
