...In case it's not clear it seems Talbot is nothing to do with us.....the way it's written couldn't be a NoW

Julian,

I went thru the new Taylor docs with today. now remembers the transcripts.....he
was give the story only at the end to do the showdown and write it up.....Mulcaire had been dealing with
Greg Miskiw for months on it before that.

I showed .. the Charlie Talbot email... he had no knowledge of it but reckoned it was a wild Mulcaire angle
to suggest a real source..... Mulcaire did this project as something entirely self-initiated (something he did
from time to time) and brought it in to us as a package for sale...hence the separate contract.
Taylor was one of his fixations (he is an obsessive).... he was always claiming close contacts with the
PFA...and hinting he knew Taylor...every year he would invite to the PFA dinner and sort of hint
he'd got the tickets from Taylor.

..... went looking on internet for the Talbot email address...he found it in secs... it's a travel agent in Haydn
- Rd Wimbledon.....then he looked for Charlie Talbot...he's a Wimbledon AFC player...see websites below
and on my next email.

You'll have seen the memo I did for Colin M....he's going to use it as the basis for his chat with Chief Exco.
James Murdoch...BUT he'd very much like us to get a view on next step and how much from our QC
first.....plse report to him direct next week...and he has your mobile.

Tom
